

PILE CRUSHER 24" CRUSH SHEAR

DEEP FOUNDATION SOLUTIONS

24" (207CM)
DIA. PILE

34.25" - 87 CM

23.25" - 59 CM

117" - 297 CM

PRODUCT ADVANTAGES

The Hydraulic Pile Crusher is an advance, efficient and time saving system for trimming concrete piles. The pile crusher has 176 tons of crushing force and can crush concrete piles up to 24" in diameter at 3500 psi pressure rating. The pile crusher weights in about 6,000lbs or 2,722 kilograms. Can be hung on the excavator, crane, and other construction machinery. The design of long life brings benefits to customer.

SPECIFICATIONS	DATA
Crushing Force	176 Tons (1565 kn)
Pile Size	Up to 24" Diameter (207 Cm)
Cylinder Stroke	30.25" (77 Cm)
Cylinder Pressure Rating	3,500 PSI (241 Bar)
Weight	6,000 lbs (2,722 kg)
